Information about the service

What is the service?

Ucingo's mobile phone service is a "SIM-only" service for use with existing mobile phone handsets.

This plan is for use in Australia. International calls, SMS and MMS to a country not listed in the table above will be charged at PAYG rates. Non-standard calls and SMS/MMS (such as directory assistance, time and weather services, Telstra and Optus mobile satellite numbers, video MMS etc.) will be charged at PAYG rates. Calls to some SENSIS numbers (1234, 12455 and 12456), International Directory Assistance (1225) and premium numbers (i.e. 1900) are not supported.

Service Provider

Ucingo (ABN 93 169 400 775) acts as a reseller and uses part of the 4G and 5G mobile network and capabilities of Telstra Corporation Limited (ABN 33 051 775 556) to provide our mobile services. Despite this, Ucingo is responsible for providing the service to you and is not affiliated with or related to the principal carrier.

Where is it available?

Ucingo Mobile provides a 4G coverage footprint of more than 98.8% of the Australian population covering 1.62 million square kilometres. 5G coverage reaches 75% of the Australian population. Ucingo Mobile uses the Telstra Wholesale Mobile Network. Use our coverage map on ucingo.com.au/mobilecoverage to check if the service is available at the location where you would usually use the service.

What do I need to access the service?

You will need an unlocked mobile phone handset that can access the 4G or 5G network. You can either request a new phone number with this service, or port across an active number from another carrier.

What is included?

Features of this service include all calls, SMS and MMS (multi-media messages) to mobile or fixed phones within Australia, voicemail and calls to 13, 1300 and 1800 numbers, plus additional features as per your chosen plan.

Do I have to bundle anything with the service?

Bundling is not compulsory. You can opt to bundle your business phone lines and/or NBN.

Data Banking

At the end of your monthly billing cycle, any unused data goes into your data bank for use in the next monthly billing cycle. The maximum amount of data that can be banked is 500GB. Any unused data from your data top up will be carried forward into your data bank. Your banked data will remain if you upgrade to a higher-cost monthly plan. Any data in your data bank is forfeited if your mobile plan is downgraded to a lower-cost monthly plan. Data Banking is for domestic use only and cannot be used if the service roams outside of Australia.

If you change your plan to a plan that is not eligible for data banking (Ucingo Data Pooling plans), your data bank will be forfeited. If a service ports away or is terminated in error, all data is forfeited, you will need to start accumulating data again from zero.

Additional Data

Once you have used all your included data, you can purchase a 2GB data top-up for \$10 each (maximum of 5 Data Top Ups). Data top-ups can be added at any time during a billing cycle. Any remaining data on your previous data top-up will be forfeited once you purchase the next one.

Any unused data from your data top up by the end of the bill cycle will be carried forward into your data bank.

Billing Date, Period, Notice and Amount

You will be billed on the 1st of every month for the full monthly plan fee as per your selected plan. The billing period will be from the 28th of the month up to and including the 27th of the following month. Please note that if you elect to receive your bill in paper via regular mail a fee of \$2.50 will be applied to your account.

Your service will be automatically renewed each month unless you inform us you wish to cancel your service, or you transfer your number to a new provider. If you cancel or transfer your service to another service provider, you will not receive a refund for any amounts that you have paid.
